# Welcome to EOS 2020

On behalf of the board of the Egyptian Ophthalmological Society, we are pleased and honored to welcome all attendees and participants of our international conference held in Hilton Cairo Heliopolis, Egypt from 11 to 13 March 2020.

The conference will present a scientific program including various courses, panels, and symposia that cover all sub-specialties in ophthalmology.

We are pleased to have distinguished international guest speakers from the United States, Great Britain, Greece, Belgium, Germany, China, Tunisia, Nadi Al Bassar, Algeria, Morocco, Kuwait, Saudi Arabia, South Africa, and other countries.

This year we will have like last year special session of the American Academy of Ophthalmology AAO, and a session of the Greek HSIORIS, and for the first time, a North African session starting a new North African Society of Ophthalmology NASO.

Lastly, we hope you will find our conference a memorable experience and gain the maximum benefit in our beloved city, Cairo.

## Optical Biometer

# AL-Scan

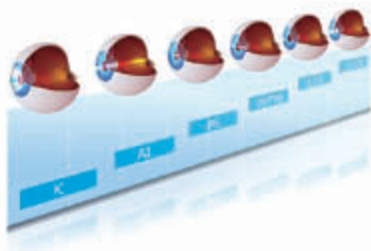

### THE ART OF EYE CARE

reddot design award  
winner 2012

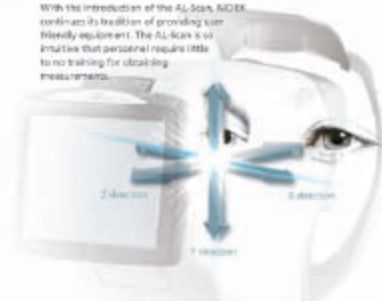

#### 10 Seconds to Measure 6 Values

Rapid measurements are essential for clinical efficiency and patient comfort.

#### 3-D Auto Tracking and Auto Shot

With the introduction of the AL-Scan, NIDEK continues its tradition of providing user-friendly equipment. The AL-Scan is so intuitive that personnel require little to no training for obtaining measurements.

#### Optional Built-in Ultrasound Biometer

In cases where the optical biometer cannot measure an eye with an extremely dense cataract, the AL-Scan provides an optional built-in ultrasound biometer, allowing measurement of a vitally important eye without having to move the patient. The AL-Scan requires no connection with an external ultrasound unit.
